M.G.POLYTECHNIC

ASSIGNMENT Academic Session 2019-20 Diploma in Electrical Engineering (2nd Sem.) Analog Electronics

M.G.POLYTECHNIC ASSIGNMENT

Academic Session 2019-20 Diploma in Electrical Engineering (2nd Sem.) Analog Electronics

- [1] Explain the current flow mechanism in PN Junction diode. PN VIALIA STATS & CTIZI YOIE of
- [2] Write a short Notes on the following : a. Zenerdiode.

b. LED

c. photo diode.

- [3] Explain the concept of PNP Transistor and NPN Transistor. PNP & Red 22 dur NPN & Red of a of Que 1
- (4) Write a short notes on common Base, common Emitter and common collector configurations. OTHARDER, ONTHAT SHIEZ ANI ONTHAT OTHAR ATEXT FARAZET 1
- [5] what is the need of Transistor Biasing? Also explain the effect of temperature on the operating point. AliGuezzatur Rist oftatt 3110240017 &? IRAD anichar larg or aturtist of your of a station of
- [6] Write down the function of each component in single stage transistor amplifier circuit Pisiatedur yactor urbuer of ychor 31044 of on hybrid for failues
- F) what do you mean by multi-stage Transistor amplifier ? Also explain the term voltage gain and current gain. are 2201 & What 2 galater it 311 your after around ?? are and site energiant of site and in 311 your after around ?? are and site?
